ABOUT US

Energizer is leading the power category worldwide with a powerful portfolio of ground-breaking products and consumer-led innovation.

Our battery products are sold in more than 140 markets around the globe.

We offer simple solutions for an on-the-go world full of technology and connectivity.

Our mission has been to innovate, with both performance and responsibility in mind, to maximise performance in our products to give power that our customers can use and depend on.

→ Innovation at the heart of our strategy

From the first dry cell battery back in the 1890's, we have continuously built a rich history of powerful advancements with innovation always at the heart of the strategy.

POWERING YOUR OEM NEEDS

Energizer®

WHY PARTNER WITH ENERGIZER?

As one of the world's premium battery suppliers for OEM manufacturers and distributors, **Energizer** provides a comprehensive product portfolio of premium brands to accommodate unique needs in the OEM industry.

These great products are supported by our Global team, who will work directly with you, our OEM partners and distributors. Our goal is to supply you with a wide range of performance products supported by our dedicated technical support team that understands your unique business needs.

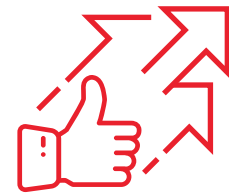

→ Powering your OEM Needs

Logistics and supply chain excellence to access our formidable global footprint of manufacturing and distribution facilities.

Innovation and Quality built in our battery category over years of engineering innovation and investment, and multiple world firsts.

Customer confidence to maximise a great consumer experience by powering your device with powerful, long-lasting and reliable **Energizer®** batteries.

Competitive Advantage to optimise sales, differentiate your products and engage with your new consumers, through the global **Energizer®** brand.

A Powerful Marketing Tool to amplify shopper experience! It showcases your device fitted with premium **Energizer®** batteries, being ready to deliver unparalleled power when your consumer needs it.

SUSTAINABILITY

→ Doing the right thing for the planet and our customers

At **Energizer**, we are focused on reducing the impact our company and products have on the environment. Our purpose is to responsibly create products that make people’s lives easier and more enjoyable. We ensure consumers can enjoy our products today without sacrificing tomorrow.

For the full sustainability report scan the QR code

Greenhouse gas emissions reduced more than 27,000 MTCO_{2e} between 2021 and 2023 throughout our operations.

In Europe, we are **saving approximately 3,600 tons of plastic over the next 10 years¹** due to our transition from plastic to paperboard packaging.

Across all of our international manufacturing sites, **approximately 41% of all waste generated is recycled.**

Energizer invites you to join our long-lasting journey to a better future.

→ Our program, which runs through 2030, includes three core goals:

Goal	Goal Year	Progress Towards Goal
Our Product Sustainability Goal <ul style="list-style-type: none"> 100% of new products will have a sustainability assessment by 2025. 	2025	COMPLETE 100%
Our Sustainable Packaging Goal <ul style="list-style-type: none"> 30% recycled content in packaging by 2030. Goal is measured by looking at all product packaging by weight. Packaging is defined as all primary (consumer selling unit) and secondary (shipping unit) packaging. Recycled content includes only post-consumer recycled content. 	2030	Currently over 50% recycled content in our packaging 100%
Our Climate Emission Goal <ul style="list-style-type: none"> 30% reduction of our scope 1 and scope 2 greenhouse gas (GHG) emissions by 2030. 	2030	Reduction of more than 27,000 MTCO _{2e} between 2021 and 2023. 70%

From the World's #1 Specialty Brand¹

The **ONLY** coin lithium cell with Colour Alert technology

CHILD SAFETY FEATURES

Introducing the world's first bulk coin lithium battery designed with two layers of defence – bitter taste to deter ingestion, and Colour Alert that activates when it comes in contact with saliva.

A SMALL CHANGE FOR A SAFER HOME

Energizer is the **world's first brand** to offer bulk coin batteries with 2 lines of defence, a non-toxic bitter coating, and the exclusive Colour Alert Technology. Together, these features help prevent accidental ingestion and help detection.

At Energizer, we strive to provide both long-lasting performance and child safety we strive to provide both long-lasting performance and child safety features.

Bitter Taste

As a **FIRST** line of defence, a bitter coating is applied to the cell to discourage swallowing and help prevent ingestion.

Colour Alert Technology

The **ONLY** coin lithium cell with this second line of defence. Colour alert triggers visible blue dye in mouth indicating the battery has interacted with saliva and medical attention is required.

**COLOUR ALERT+
BITTER COATING**

**Available
in bulk tray**
